DETAILED ACTION

Claims 1-3 and 5-8 are presented for examination.

Information Disclosure Statement

The Information Disclosure Statement filed on December 5, 2002 has been reviewed and considered; see the enclosed copy of PTO FORM 1449.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With regard to claim 5, it is not clear whether the Applicants are claiming a method or a pharmaceutical composition. It appears that Applicant is claiming method claims in view of proceeding claims 6-8. Therefore it is suggested to accelerate the prosecution of the instant Application, to draw claim 5 to "a method for a chemotherapeutic treatment of neuropathies...". The remaining claims are indefinite to the extent that they depend on claim 5.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Graham (U.S. Patent No. 6,075,028) of record.

Graham teaches compound of formulas (I), (Ia) and (III) (sildenafil) set forth in claims 1-3, is commonly known as "Viagra" commercially available and commonly known for the treatment of erectile dysfunction.

Applicants' recitation in claims 1-3 of an intended use does not represent a patentable limitation since such fails to impart any physical limitation to the pharmaceutical agent.

Art Unit: 1617

For these reasons the claimed subject matter is deemed to fail to patentably distinguish over the state of the art as represented by the cited references. The claims are therefore properly rejected under 35 U.S.C. 102.

Allowable Subject Matter

Claims 5-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
